P O Box 478323
Dubai ,UAE

Dear Hopatec,

Brest Friends in partnership with Al Jalila Foundation, since April 2015, is dedicated to promoting early detection of breast cancer, facilitating medical treatment for breast cancer patients and, most importantly, funding locally-based research into the epidemiology of breast cancer in the UAE. Advances in research offer hope and healing to countless women diagnosed every year.

Brest Friends, the first breast cancer support group in the UAE, was established in 2005 with the mission to save lives by increasing awareness of breast cancer and providing a platform where patients and survivors can learn, share experiences and offer moral and emotional support to each other which has proven to be instrumental in a woman's healing process.

Brest Friends is delighted to be a chosen charity of Hopasports and confirm that Hopasports is approved to collect charitable funds solely through their website on behalf of Brest Friends in partnership with Al Jalila Foundation. 100% of funds raised are used to give hope to patients and accelerate breast cancer research in the UAE.

Best regards

Dr Houriya Kazim
President and Founder
